## Walking track classifications

| Grade 1 track | Flat, even surface with no steps. Suitable for wheelchairs with assistance. |
| Grade 2 track | Formed track. May have gentle hills and some steps. All junctions sign-posted. No previous bushwalking experience required. |
| Grade 3 track | Formed track. May have short steep hill sections, a rough surface and many steps. Reasonable level of fitness and some bushwalking experience recommended. |
| Grade 4 track | Rough track. May be long and very steep with few directional signs. Moderate fitness level with previous bushwalking experience strongly recommended. |

## Adventure safely

### Centenary track
- Make your visit memorable for all the right reasons.
  - **Stay on the tracks**
  - **Take care near cliff edges**
  - **Never dive or jump into rivers and creeks**
  - **River and creek crossings can be hazardous after heavy rain**
  - **Leave a copy of your bushwalking plans** with a friend, relative or your place of accommodation.
  - **Leave plenty of time to reach your destination** and return to your vehicle before dark.
  - **Walk in small groups, never alone**—in case someone needs to go for help. Always keep your walking party together.
  - **Wear sturdy, ankle-supporting footwear and carry protective clothing**. Temperatures and weather can change rapidly.
  - **Carry sufficient food and water** as well as a first-aid kit and a torch.
  - **Use insect repellent** for ticks and leeches.

### Tread softly

Maintain this pristine environment—here’s how:
- **Rubbish—pack it in, pack it out**. All rubbish (including food scraps, cigarette butts and sanitary and hygiene items) must be carried out.
- **Cooking—no open fires are allowed in the park**; fuel stoves must be used.
- **Bush hygiene—keep it clean!** There are no toilets away from picnic and camping areas, so take care with sanitation and hygiene and don’t pollute the natural water supplies.
- **Do the frogs and the forest a favour**—wash your boots at the pathogen control stations and help stop the spread of harmful organisms.
- **Be frog friendly**—please don’t disturb or remove rocks or trample vegetation near creeks.
- **Don’t feed the wildlife**. Feeding native animals may cause poor health and sometimes death.
- **Leave your pets at home**—domestic animals are not permitted in national parks.

### Swimming in the park’s creeks and rivers is not recommended.

These waterways can be polluted and damaged by humans—harming the pristine aquatic ecosystems and wildlife. See Adventure safety for safety details.

**For all emergencies call Triple Zero (000)**

Mobile phone coverage is not available in many of Queensland’s parks and forests. If there is no coverage on any mobile network, you will not be able to reach the Emergency Call Service via a mobile phone. A Person Locator Beacon is recommended where mobile coverage is not available.
