## Koala Bushland Coordinated Conservation Area

Circuit distances and times are measured from a trailhead. Trails distances and times are measured from the trail start to end points.

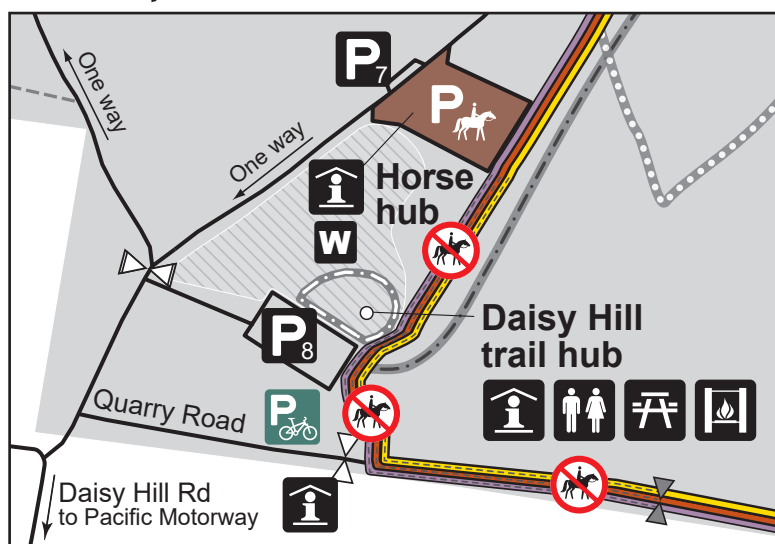

### Horseriding trails only

Trail name	Classification	Starting point	Trail colour	Distance one-way	Time
Wattle trail		Horse hub		2km	15min
Hickory link		Horse hub		290m	2min

### Circuits and trails also shared with walkers and mountain bikers

Circuit/trail name	Classification	Starting point	Circuit/trail colour	Distance one-way	Time
Plunkett mallee circuit		Don and Christine Burnett Conservation Area trailhead		2.4km	15min
Spotted gum circuit		Horse hub (return to Horse hub via Hickory and Wattle trails)		5.2km	50min
Stringybark circuit		Horse hub (return to Horse hub via Hickory and Wattle trails)		5.7km	1hr
Buhot Creek circuit		Horse hub (return to Horse hub via Hickory and Wattle trails)		9km	2hr
<b>4</b> Ripleys trail		Horse hub and branch off Stringybark and Buhot Creek circuits		2.2km	15min
<b>5</b> Koala trail		Horse hub and branch off a management road		1.1km	5min
<b>10</b> Glider trail		Branch off Buhot Creek circuit in Neville Lawrie Reserve		2.3km	15min
<b>13</b> Sleepy hollow trail		Don and Christine Burnett Conservation Area trailhead and branch off Buhot Creek circuit		350m	2min

### Inset map

### Horseriding trail classifications

#### Class 1 (easy)

- Wide trail with a gentle slope and a relatively obstacle-free, hardened, natural surface.
- Suitable for riders seeking a short trail requiring a basic level of skill and horse and rider fitness.

#### Class 2 (intermediate)

- Trail with obstacles, variable surface and a moderate slope.
- Suitable for riders seeking a short to medium distance trail requiring a moderate level of skill and horse and rider fitness.
- No previous bushwalking experience required.

**In Daisy Hill Conservation Park, dog walking is only permitted** in the day-use area and on walking tracks and shared trails displaying this symbol. Dogs are not permitted on trails designated only for mountain bikers or horseriders.

**Scroll down to page 3 of the map** for information on planning your ride in the KBCCA and for safety information and how to protect the bushland.

### Legend

 Conservation park	 Shared trail (walking and mountain biking)	 Information sign
 Trail day-use area	 Mountain-bike trails only	 Parking
 Sealed road	 Horseriding trail	 Mountain-bike parking
 Management road*	 Shared trail (walking, mountain biking and horseriding)	 Horse float parking
 Step through	 Spotted gum circuit	 Toilets
 Locked vehicle gate	 Stringybark circuit	 Picnic area
 Horse trough	 Buhot Creek circuit	 Barbecue (wood & electric)
	 No horses allowed	 No horseriding

### Adventure safely

Make your ride memorable for all the right reasons. **Choose the trail that suits you and your horse's skills and experience.**

#### Plan ahead

- **Always check weather conditions.** Visit—[bom.qld.gov.au](http://bom.qld.gov.au) and [qld.gov.au/ ParkAlerts](http://qld.gov.au/ParkAlerts). During extreme weather periods (mostly in spring and summer) storms can occur, and high rainfall can flood some walking tracks resulting in closure for public safety.
- **Before leaving home, remove seeds, wash soil and mud from your clothes and shoes, your horses' coats, hooves, equipment, and floats** to stop the spread of weeds and pathogens.
- **Avoid riding in the middle of the day**, especially on hot days.
- **Let somebody know where you are going**, even on a short ride. Let them know when you plan to return.
- **Leave plenty of time to complete the ride in daylight** and if riding in a group, always keep together.

#### The essential packlist

- **Suitable footwear, protective clothing and riding safety gear.**
- **Fully charged mobile phone**—reception may be poor in places but is sometimes possible from high points on the trail system. Save battery life by minimising use—you might need it to make an emergency call.
- **Adequate drinking water**—drinking water is not provided in the park.
- **First-aid kit** (including snake bite bandage) for rider and horse and know how to use it.
- **Insect repellent** to help prevent tick and other insect bites or stings.
- **Download a map for the KBCCA.**

#### While in the KBCCA

**Stay on trails where these symbols appear on directional signs.**

- Ride in groups of less than 6.
- Keep speed to a walk or trot.
- Avoid riding on soft, wet, muddy trails.
- Tether horses only for a short period and only at hitching posts or resting areas.
- Remove horse manure from the park.
- Crossing watercourses at designated crossing points.
- Avoid scaring horses, talk or call out to oncoming horseriders and when approaching from behind.

#### Follow the give way code

- **Cyclists must give way to walkers and horseriders**, and alert others when approaching them.
- **Walkers must give way to horses.**

#### Rider's tip

- **Look for these directional markers** and use them to navigate the circuits and trails.

#### For your safety

- If you see a snake, leave it alone and keep clear.
- Obey signs and regulations—they are in place to protect you and the park.
- Stay on the tracks and observe signs.
- Watch out for other trail users, wildlife and fallen branches. Wildlife is generally more active in the early morning and late afternoon.
- Ride with an experienced rider or consider joining a club.

- **If you and your horse is new to riding shared trails, choose trails with this symbol.**

*Emergency marker code*

**Emergency markers** are located at track and management road junctions throughout the park.

The **emergency marker code** assists emergency services (Police, Fire and Ambulance) in locating the emergency in the park.

#### Emergency

**For all emergencies call Triple Zero (000)**, and if possible, recite the closest emergency marker code. Be aware, if there is no coverage on any mobile phone network, you will not be able to reach the Emergency Call Service via a mobile phone.

#### Beware!

When riding a shared trail:

- Mountain bikes travel faster than horses. Bikes may approach from either direction or cross shared trails at junctions.
- Wearing earphones or headphones reduces your ability to hear approaching bikes.
