Camp site surface:

Compacted gravel.

^ Tent pad: Check that your tent will fit on the tent pads provided before booking a site. Vehicles cannot be parked on tent pads. There are bollards between car parks and tent pads.

Height restriction:

This camping area is only suitable for vehicles lower than 3.20m. This is due to overhanging trees and tight turns.

*** Long:** It may be possible for car and trailer to remain attached or trailer to be extended (note maximum length of car park).

Wide: a car and trailer can park side-by-side.
