Finch Hatton Gorge Section
Eungella National Park

DANGER
Five deaths have occurred in this area since 1976. Finch Hatton Gorge has many dangerous cascades. While the cascades look inviting to explore and climb, please be aware of the dangers—too many lives have already been lost here!

Five deaths have occurred in this area since 1976. Finch Hatton Gorge has many dangerous cascades. While the cascades look inviting to explore and climb, please be aware of the dangers—too many lives have already been lost here!

Callistemon Crossing
Fast stream rises and strong currents occur following heavy rainfall. Do not attempt to cross fast flowing streams.

Araluen Cascades
2.8km return (1–1.5hrs)
Do not climb on the rock faces. Rocks may be loose or slippery especially after rain or from water spray at the cascades. Jumping and diving into the creek is prohibited. Penalties apply.
