Escape magically

Plan your getaway
Venture into the green beyond the gold, where open woodland and rainforest adorn rolling valleys and peaks, and seemingly impassable ranges reach to the clouds. Write your own story on a day trip or holiday to this vast and beautiful landscape, exploring all that this region has to offer.

Best time to visit
Along the coast the climate is mild and subtropical with temperatures ranging from 20°C to 28°C in summer and from 11°C to 21°C in winter. But in the west and on the mountain plateaus winter mornings can fall below a frosty 0°C and hot summer days can reach a simmering 25°C to 40°C, especially on the exposed ridges.

Walking in the cooler months from April to September is best when rain and leeches are less common.

Add some local flavour
Add one of the region’s fun-loving events or tourist attractions to your journey.

Slow dance with a special someone at a jazz festival, steal through neon-lit city streets for some late-night shopping, treasure hunt at a local market or scream upside down on a rollercoaster ride.

Dress up and enjoy a day out at the country races, ride your bike past farmland and open country plains, celebrate at a firefly festival or savour regional flavours at a country pub, teahouse or winery.

With each step feel a connection with this beautiful land—a sacred and spiritual place for the Yugambeh people.

Rangers’ tip
The best way to truly experience this historic World Heritage gem is to stay overnight. Discover the park’s special stories at the Binna Burra and Green Mountains information centres.

Places to camp

Things to do

Wildlife spotting
Listen for the whip-cracking call of the eastern whipbird. See the brilliant red and blue colours of the crimson rosella or the magnificent green and red of the Australian king-parrot.
